The FIBA Central Board Approves Historic Rule Changes

GENEVA, Switzerland/BEIJING, China/26th April 2008 – The FIBA Central Board, the highest executive body of the International Basketball Federation, met yesterday, Friday 25th April, and has continued its session today, Saturday 26th April, in Beijing, China. The meeting has been organized in cooperation with the Chinese Basketball Association.

An additional press release containing several important decisions of the FIBA Central Board will be issued in the next hours. However, this morning the Central Board has taken some major and historic decisions as with regards to the game rules.

Indeed, upon recommendation of the FIBA Technical Commission (a group of experts that deal with the game rules), the FIBA Central Board has approved today several amendments to the Official Basketball Rules.

The recommendations by the FIBA Technical Commission and the decisions taken by the Central Board were strived by the attempt to further unify all existing game rules and to have, in the future, only one set of rules for the game of basketball worldwide.

Please find below a summary of all approved rule changes, which include historic amendments like the extension of the 3-point line (in place since 1984) and the change of the trapezoid restricted area (in place since the 1950s) to a rectangular one:

- **OFFICIAL BASKETBALL RULES 2008:**

All below-mentioned rules will come into effect as of 1st October 2008, i.e. after the Beijing 2008 Olympic Games.

Art. 4.3 Uniforms

The provision that T-shirts may be worn by players under their game uniforms is not valid anymore.

Art. 25.2.3 Player falling on the floor

It is legal when a player falls and slides on the floor while holding the ball.

Art. 28.1.3 Ball goes into team's frontcourt

The ball goes to the teams' frontcourt when, during the dribble from backcourt to frontcourt, both feet of the dribbler and the ball are in contact with the frontcourt.

If a player reaches through the basket from below and touches the ball, it is an interference (and not a simple violation) with all the relevant rule consequences.

Art. 36.1.4 Unsportsmanlike foul

If a defensive player causes contact with an opponent from behind or laterally in an attempt to stop a fast break and there is no opponent between the offensive player and the opponents' basket, then the contact shall be judged to be unsportsmanlike.

The two (2) small lines shall be marked outside the court, on the opposite side of the scorer's table and the team bench areas, with the outer edge at the distance of 8,325 m from the inside edge of the end lines; in other words, level to the top of the three-point line.

If the throw-in is to be administered in the backcourt, if required by the respective rules, the 24-second device shall be reset to 24 seconds.

If the throw-in is to be administered in the frontcourt, if required by the respective rules, the 24-second device shall be reset as follows:

⇒ If 14 seconds or more are displayed on the 24-second device at the time the game was stopped, the 24-second device shall not be reset and shall remain the same.

⇒ If 13 seconds or less are displayed on the 24-second device at the time the game was stopped, the 24-second device shall be reset to 14 seconds.
